

Day 2 - Saturday, 12 November

15:00 - 16:00

#EDSC2022

Bio Remodeling for Neck & Décolleté with Hybrid Hyaluronic

Workshop Objectives

- For practitioners who wish to also offer patients non-invasive neck & décolleté treatments to enhance authentic beauty.
- To eliminate the effect of loose body skin.
- Bioremodelling treatment is based on the stabilized Hybrid Cooperative Complexes (HCC) of high and low molecular weight Ultrapure Hyaluronic Acid.
